Full-Stack Web Developer with a strong background in team building and rapid problem-solving.

TECHINCAL SKILLS

HTML5, CSS, JQuery, Javascript, Bootstrap

PROJECTS

Code Quiz Javascript | https://github.com/lhooper921/code-quiz-javascript | https://lhooper921.github.io/code-quiz-javascript/

- Displays a quiz with Javascript related questions and saves high scores.
- The quiz provides immediate feedback to the user regarding remaining time, correct, and incorrect answers. High scores are saved to local storage and can be accessed through the high scores page.
- HTML, CSS, Bootstrap, Javascript

Outdoor Itinerary | https://github.com/lhooper921/outdoor-itinerary | https://christ-ine.github.io/outdoor-itinerary/

- Allows user to build an itinerary for the day focusing on outdoor activities for social distancing purposes.
- This project used multiple APIs to gather search results, on-click functions to build an activity list, and drag-and-drop functions to add to the planner. My role was to write the drag-and-drop, save to planner, add to list, and clear list functions as well as ensuring seamless incorporation of other code.
- HTML, CSS, Material, Javascript, JQuery. APIs : National Park Service, Zomato, Google Maps

Weather Dashboard | https://github.com/lhooper921/weatherDashboard | https://lhooper921.github.io/weatherDashboard/

- Dashboard displaying a city's current weather, 5-day forecast, and search history.
- Use Openweathermap API to search for information by city. Saves and displays search history, which can also be clicked.
- HTML, CSS, Material, Javascript, JQuery, moment.js
